

# Australian Designed & Manufactured Control Valves

AUSTRALIAN OWNED AND OPERATED

WHEN IT'S OILPATH, IT WORKS!

# Genuine Oilpath Difference

- High Quality Australian Valve castings
- Hand finished spool fits for minimum leakage
- HydraForce World Class Relief Valves
- All Valves function tested by experienced engineers

---

*When it's Oilpath it works!*

---

## **OP 20 Australian Born & Bred Benchmark**

The OP20 was developed in the 1970's and soon became a benchmark in the Agricultural and Mobile sectors. The valve has gone through various updates throughout the years with proportional pneumatics with on/off and manual override being a popular option, and this will soon be augmented by a Proportional Solenoid option under development.

## **OP High Performance Truck Valve Range**

Without question Oilpath Twin Spool Truck valves are the most effective valves in this sector.

These valves have the most efficient return to tank lines in the industry, allowing truck and trailer trays to be lowered quickly improving truck utilisation. These valves can be utilised together with Oilpath's market leading Hoist Check Valve.

# OP Control Valve Range

## OP10 / 11

Parallel Hydraulic Circuit

Nominal Flow 45 l/min

Max operating pressure 345 bar

Up to 4 spools available

Closed Centre & Power Beyond options

Handle and Pneumatic operation option

## OP20

Series Parallel Hydraulic Circuit

Nominal 100 l/min 120 l/min option

Maximum operating pressure 275 bar

Up to 5 spools available

Closed Centre & Power Beyond options

Individual Load Checks for each spool

Pneumatic on/off or proportional options

## OP Truck Valve Range (OP22 Specifications)

160 l/min twin spool truck and trailer valve

Maximum operating pressure 245 bar

Proportional operation

Optional BSPP ports for auxiliary functions

Manual override option available

## Oilpath Hydraulics

Oilpath Hydraulics remains the only Designer and Manufacturer of Hydraulic Directional Control Valves in Australia, utilising its experienced long serving team to supply hand honed and fitted spool valves to the highest Quality standards.

Oilpath also designs and manufactures integrated Hydraulic Control Manifolds utilising HydraForce Cartridge valves, and custom designs and manufactures special control equipment to customer requirements.

The Oilpath name is synonymous with directional control valves in the Agricultural Industry. Over the last 20 years Oilpath have also been developing the same excellent reputation for the design and manufacture of hydraulic control manifolds not only for agriculture but for a broad range of other end use applications throughout Australia.

### Contact Us

Contact Oilpath or visit our Website for further information on the OP Control Valve range, or your Hydraulic Manifold requirements.
