

## OILPATH CUSTOM MANIFOLDS

- Consolidate your hydraulic control system.
- External connections are minimized.
- External leakage is virtually eliminated.
- Reduced installation time and system maintenance.
- 100% circuit logic and function tested.
- “Fast-Track” service for quick delivery of a working prototype block.
- Utilizing Industry leading HydraForce Cartridge Valves & control equipment.

## OILPATH CUSTOM MANIFOLDS

### Custom Hydraulic Manifolds

At Oilpath we believe that better performance comes from working together, and our engineers and field representatives will work with you to design your hydraulic control system. We understand that optimizing the performance of your machine starts with creative hydraulic integrated circuits, and when you work with Oilpath we utilize HydraForce cartridge valves and control equipment, therefore you can select from the broadest product range in the industry.

Our design staff will collaborate with you and verify your design prior to manufacturing a prototype. Then we'll make any necessary refinements and engineer your product to meet your exact specifications. With proprietary innovations like HydraForce I-Design manifold tool, designing your hydraulic control schematic is easier than ever. The result is a performance- and configuration-optimized hydraulic solution that is designed exclusively for you.
